1. It was discussed that the Glisan wall repairs have been completed and are satisfactory. \$300 was paid for cutting back the vegetation that was encroaching on the wall. It was decided that would probably need to be done at least annually, and the board would keep an eye on the growth around the wall next year.
2. Reimbursements will be made by the end of 2017 for the two lots that replaced the trees in front of their houses in 2012.
3. Meeting adjourned at 4:30 pm
